Friday Aug 19:

The presentation of the Diagnostic Exercise is given by Trine Markussen

Saturday Aug 20:

The title of the talk by Anders Folkesson is: **Biofilm formation and antibiotic tolerance: is there a connection?**

Tuesday Aug 23:

There are no planned Microtiter tray assays

The image acquisition is resumed at 1:00 pm.

Thursday Aug 25:

The title of Søren Molin's talk is: **Evolution of *Pseudomonas aeruginosa* chronically infecting cystic fibrosis patients.**

Addition:

Wednesday Aug 24:

The groups will get assigned one of biofilm systems 1-4 or the diagnostic exercise for presentation on Friday.

All groups will present their own free exercise(s)

Each group will also be assigned the role of opponent for one of the other exercises.

The assignments are done by lottery.
